# FRESHNESS- SUCH AS YOU'VE NEVER HEARD OF BEFORE

A NEW KIND OF TOAST ... "Toast that is tender and soft and retains all of the bread's original flavor is something to rave about. That's why so many people insist on Merita Bread."

When you buy bread from your grocer you naturally expect it to be fresh. But how long will it keep fresh in your bread box? Here is a question that most bakers have avoided, but Merita dares to upset the applecart by frankly discussing this important subject with housewives.

It is simple for a baker to deliver a fresh loaf of bread to your grocer. But to bake that same loaf so it will stay

fresh in your bread box until the last slice is consumed is a different story. That calls for the Merita method of controlled freshness.

Only Merita Baked-in Flavor Bread has this lasting freshness. Exhaustive "bread box" tests, using Merita and other brands of bread, have been carefully and impartially conducted under all kinds of conditions by the Merita Research Laboratories. These tests prove conclusively that Merita will stay fresh in your bread box from two to four days longer than other brands.

# Lan your kitchen-Mrs. Ben B. Carmichael did!

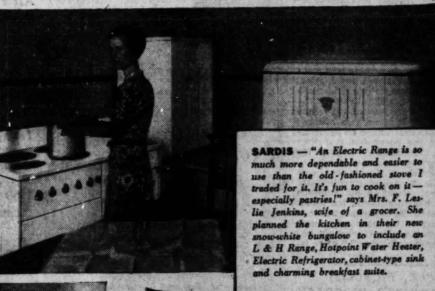

Isn't her kitchen beautiful and convenient? Your kitchen can be as lovely as this one or any other of the Georgia kitchens pictured here. It can be made into a room that saves you time, and preserves your youth and loveliness.

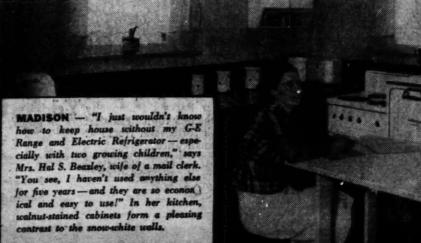

Your kitchen need not be a place of drudgery demanding dreary hours of needless labor. A place that requires trips to get things from the refrigerator in another room or alcove; then trips to put things back again . . . steps, steps, steps on weary feet, back and forth to range, sink, table, pantry and kitchen cabinets. Miles of steps . . . hour on hour spent at simple kitchen tasks, merely because of improper arrangement and out-of-date equipment. The easy solution is simply: PLAN YOUR KITCHEN.

We'll be glad to help you work out a plan for the arrangement of your kitchen equip-. . . a plan that will greatly reduce the time you spend in your kitchen. In a Planned Kitchen the refrigerator, sink, range, working space, utensils, dishes and food are placed so you don't have to pace back and forth to prepare a meal. Everything is conveniently located right at hand. Your meal preparation goes forward in a direct line to the dining room. To have such a kitchen, you don't have to buy a whole lot of equipment. Arrange what you have, and then, from time to time, buy the equipment that fits into your plan.

Let us help you plan your kitchen. Our local home economist is skilled at practical Kitchen Planning. She will gladly come and work with you to improve the arrangement of your kitchen. Simply paste the coupon on a penny postal card and drop it in the mail.

# JUSTICE BLACK

Attack on High Court Judge Termed 'Anti-Administration' Politics.

Relentless criticism of Associate Justice Hugo L. Black for his alleged membership in the Ku Klux Klan was termed "anti-administration politics" by Congressman Robert Ramspeck in an interview

yesterday.
While Black sped across the Atlantic ocean yesterday on his homeward journey from London, Congressman Ramspeck sat in his office in the old postoffice building and paid tribute to the former Alabama senator's intelligence and

ability.
"Mr. Black is a man with a very fine mind and will make a good justice," Congressman Ramspeck said. "All of this criticism about the Ku Klux Klan is just anti-administration politics. Even if he were a member of the Klan he hasn't taken any obligation that would interfere with his duties as an impartial justice," the congress-

Defends Ritual. Ramspeck pointed out that "anybody who knows anything about the ritual of the Ku Klux Klan must admit that there is

nothing about it that the American public could object to."
"So far as I know," he said,
"there has never been anything in the ritual that could be construed as anti-Catholic or anti-Jewish. The organization as it was originally intended was nothing more than a fraternal insurance order. Congressman Ramspeck indicat

ed that he does not expect President Roosevelt to run for another term, although he said he could not be certain about that "since anything can happen in politics."

When asked about the possibility of an extra session of congress, the congressman said he thought that would depend large-ly on the reaction to the Presi-dent's trip into the west.

Urges Civil Service. A strong advocate of civil service for postmasters, Congressman Ramspeck will address a convention of the National Association of Postal Supervisors next week in Nashville, Tenn. He will speak on civil service legislation.

Branding the office of postmaster as a "political football" in a great number of cases, he explain-ed that civil service regulations ed that civil service regulations will bring more efficiency and economy in government. "I want to see city, county and state employes put under civil service," he declared. "I am trying to sell civil service to the country," he emphasized

Congressman Ramspeck, who has speeches scheduled in Boston and Washington, indicated he may attend the postmasters' convention in San Francisco.

General Stoddard Signs 99-Year Lease on Site in Northeast Georgia.

Early beginning of work on a permanent national guard camp for Georgia was indicated yesterday when Adjustant General John E. Stoddard signed a 99-year lease on a 1,200-acre northeast Georgia tract.

tract.

The land now is under control of the Resettlement Administration, and only the signature of Washington officials to the lease is necessary to give the state military department the land.

The area is surrounded by between 30,000 and 40,000 other acres of resettlement land which can be used for maneuvering purposes, Stoddard said.

This additional acreage will make it possible to erect an artil-

make it possible to erect an artil-lery range large enough to serve national guardsmen not only of Georgia but of several other states. Georgia guardsmen now received their regular summer training usually at some camp not located

in the state. Stoddard estimated it will be 1939 before the camp can be made ready to accommodate a brigade.

Air Reserve Corps Planned To Help Patrol in Emergency Assignments.

Formation of an aerial reserve corps to assist the state highway patrol was started yesterday by Governor Rivers.

Governor Rivers.

Five aviators conferred with the Governor on plans to organize a volunteer corps pointed toward speedy transportation of troopers in times of emergency.

Wallace Sheffield, of Americus, was designated by the Governor to assemble aviators who probably will be interested for another meeting here to take definite steps.

steps.

Frank Hulse, president of Southern Airways, Inc., of Augusta, said the primary purpose of the corps would be to stand ready at all times to transport troopers to any point where a concentration of enforcement officers became

necessary.

Besides Sheffield and Hulse, those taking part in yesterday's discussion were Mayor Richard E. Allen Jr.; of Augusta, Harmon Lane and Lamar Jefferson, of Augusta,

gusta.

Rivers said he looked favorably upon the suggestion, declaring it not only an aid to the patrol, but a "boost for aviation in the state."

"There is no doubt the corps would increase interest in aviation, and I believe it would lead to the development of more airports in the state," he explained.

The plan calls for the corps to be operated without cost to the state.

HEARINGS PLANNED ON PHONE SERVICE

Millen-Folkston To Be Heard by Commission.

by Commission.

The Georgia Public Service Commission prepared yesterday to conduct hearings pointed toward improved telephone service for two Georgia cities—Millen and Folkston. At the same time, the commission released an order permitting the Buchanan service to be changed from the magneto ("coffee grinder" wall phones) to the dial system, with an attendant 25-cent-per-month increase in rates.

Jud P. Wilhoit, former chairman of the board, concurred in the order granting the change in service, but dissented in a special opinion from the increased rate. The commission also allowed the Darien Telephone Company to set up two-party rates of \$3 and \$2.50 per month for business and residential telephones, and allowed the company two weeks within which to make improvements to the system before hearing a rule nisi on the condition of the service. The Darien company formerly has had only one-party rates.

The hearing on the rule nisi in the Millen and Folkston cases will be conducted October 12. The order calls on the companies to show cause why "modern and efficient telephone service" should not be installed.

LICENSES LAGGING, SUTTON DECLARES

Only 5,000 persons in Fulton and DeKalb counties have applied for drivers licenses since September 20, when a month's deadline was set to get licenses without an examination, Clement E. Sutton, acting director of public safety, declared yesterday.

"More than 100,000 persons in these two counties have not yet applied for licenses, and if they do not do so in the immediate future, it will be impossible for the bureau to supply them in the specified time, and they will be forced to stop driving or be liable to prosecution." Sutton said.

#### THERE WILL BE NO WHITEWASH

Public confidence in the thoroughness of the grand jury investigation of crime conditions in the community has been strengthened by the progress made to date. It is clearly evident that there will be no covering up of those guilty, regardless of who may be involved as the evidence is disclosed.

The grand jury, Special Prosecutor E. E. Andrews, Chief of Police M. A. Hornsby and others charged with the investigation are backed with the full force of public opinion. Atlanta has decided that organized crime cannot be tolerated in this community and any attempt to intimidate witnesses, to bring financial or political pressure to bear or to interfere otherwise with a full probing of conditions will meet prompt rebuke.

Above all else, it is vitally important that the persistent rumors that members of the local law-enforcement bodies have been accepting "pay-offs" for the protection of various rackets should be either proven or disproven. It is being openly charged that criminal gangs, engaged in various illegal activities, are able to exist only because members of the city, Fulton county and DeKalb county police forces are paid for protection.

This issue, of the rumored connection between the law-enforcement bodies and organized crime, is the keystone of the entire situation. Whatever good results may come of the present investigation, if they are confined to attack on specific forms of illegal activity and ignore the allegations of police culpability, will leave the real disease untouched.

For the sake of the honest police officers on the city and county forces, it is imperative that rumored grafting by a few of their confreres be uncovered, if it exists, and stamped out.

For the sake of the community and every citizen, this charge must be probed to the bottom and the truth must be ferreted out for everyone to see.

When the truth is finally known to the investigators, immediate and vigorous court action must follow. There must be no effort at whitewashing wherever the slimy trail of graft may lead. There must be full confidence in the law-enforcement authorities. If that confidence is shaken, racketeering and crime will inevitably flourish.

The investigation, in its present stages, is progressing toward this central, vital problem. If it succeeds in ending the activities of any one, or more, groups of law violators, the re-

But, if it leaves police corruption still a matter of rumor, the investigation will have failed and new racketeering groups will promptly spring up to supplant those put out of business.

The evil situation can only be ended by making forever impossible any collusion between crime and the law.

The truth as to the uprightness of the police must be made clear, or the investigation will have woefully failed of its chief purpose.

#### BRUNSWICK MOTORCADERS

Brunswick citizens today celebrate the opening of a new, all-paved route to Atlanta, A motorcade will leave the coast city this morning, to arrive in Atlanta this afternoon and to climax the program with a banquet and party at which Governor Rivers, Mayor Hartsfield, members of the State Highway Commission and other officials will be honor guests.

Thus another step in Georgia progress is signalized. Two important and friendly cities are drawn closer through the completion of a shorter and faster road whereby the citizens of each may more frequently visit the other.

Brunswick has for many years been a favorite resort of many Atlantans. Thousands visit its famed holiday centers, Sea Island and St. Simons, every year, where they find ideal surroundings for the enjoyment of the beauties and benefits of a coastal holiday.

In a business and industrial way, the two cities are closely linked.

But it is in friendship that exists between

the citizens of Brunswick and the citizens of Atlanta that the closest tie is found. The program of today's motorcade party

will renew and strengthen those old ties. And the future will see still greater friendship because of the greater proximity of the two com-munities through the reduction in time, the true measure of distance, the new highway

THE COMMUNITY CHEST AND ITS GOAL The directors of the Atlanta Community Chest have announced a need for \$474,070 to finance the 33 agencies which are supported from this general fund, for the coming year.

The advantages inherent in a single annual campaign to provide support for these 33 agencies are self-evident and are too well understood to need reiteration. The Chest idea for financing social service has been tried and proven for many years and no thinking person would advocate a return to the confusion in giving which existed when each organization made its independent appeal for public contributions.

It cannot be too strongly stressed, however, that the figure arrived at by the Chest directors is the absolute minimum required if the Chest agencies are to render those services expected by the public. The personnel of the Chest directorate consists of careful businessmen, accustomed to extracting full value for every dollar expended and disinclined to increase any budget beyond the absolute requirements for efficient work.

If these men say the Chest agencies must have \$474,070 to carry on their work during 1938, Atlanta as a whole can depend upon that figure as the rock-bottom minimum. If Atlanta, in the campaign to start October 18, falls short of giving that amount, the welfare work for 1938 will likewise fall short. The final dollar of the announced quota is just as needful as the

Every man and woman in the city should give to the Chest generously and to the full extent of financial ability. Only by so doing can the Chest be filled.

#### A HEALTHIER GEORGIA

Dr. T. F. Abercromble, director of the State Department of Public Health, in his semi-annual report, reveals a reduction of 7.7 per cent in the death rate for Georgia during the first six months of 1937.

Infant mortality for the same period has decreased 5.8 per cent, with the result that for 28.560 recorded births there were only 16.692 recorded deaths

Such a report demonstrates irrefutably the value of the work done by the health department. The cost of maintaining health work is negligible compared to such results. Even the financial returns, if measured in the dollars and cents value of each extended life, show tremendous dividends. But added to this is the far greater, though intangible, value of increased happiness and lessened sorrow in the

The department, Dr. Abercrombie reports. is concentrating on county health work as the most logical avenue through which to promote better public health generally. Incidentally, the health director states that lack of properly trained health workers is one of the major problems of the department.

Malaria fever was listed by Dr. Abercrombie as a major problem for the state, the number of deaths by this cause having increased this year. On the other hand, deaths from typhoid, diphtheria, tuberculosis and pellagra have de-

#### MEDITERRANEAN TRUCE (From the Dallas Morning News.)

Acceptance by Russia and Italy of the nineower plan to combat submarine piracy in the Mediterranean goes far toward giving temporary relief from Europe's war tension. Italy's qualified approval is especially gratifying, in view of the widespread belief that this country has been responsible, directly or indirectly, for most of the piratical acts that have taken place.

This favorable outcome of the Nyon conference is a tribute to British diplomacy. The British persuaded the delegates to rigorously close their eyes to past acts of piracy and to look hopefully to the future. It was feared that if some cases of torpedoed ships were scrutinized too closely the culprit might be discovered and something would have to be done about such overt acts.

As it was, the conference carefully avoided giving Italy any real excuse for failure to co-operate. Warships already are in the Mediterranean to convoy merchant vessels, and the danger of further piracy seems allayed for the time

This outcome means that Italy no longer will be able to prevent Russia and other nations from trading with Spain and from selling munitions to the Loyalists if they wish to do so. Franco's Rebel forces have had much better access to foreign supplies than have the Loyalists. German airplanes have even flown across France obtaining directions from radio stations at French airports.

Of course, it should not be necessary to pr vide armed convoys for merchant ships in the Mediterranean, especially when there is no recognized war in progress except the Spanish rebellion, which is essentially a land war. It is cheaper, however, to provide convoys for a few

GOOD-WILL GESTURE WASHINGTON, Sept. 22.—There may be more behind President Roosevelt's visit to the very British land of Victoria than a mere desire to gaze on the beautiful flower beds for which British Columbia's capital is famous.

It is quite within the realm of possibility that his few choice words to the Canadian people may be a bid for a little more favorable treaty treatment for the United States. The State Department would like to have the wheels greased for arrangements in the field of trade and fiscal matters which would put the United States in better situation than the United States in

a better situation than we now are, as compared with Great Britain.

Two things the State Department is bothered about. One is
the fact that Americans living in Canada don't get as good a break as British residents there, when it comes to the question of income taxes. A Canadian-American tax treaty was drawn up by Acting Secretary of State Moore while Secretary Hull was away in South America. Canada was kind enough to give us a little help in run-ning down our tax evaders in her borders, but even that quid pro quo didn't allow Mr. Hull to relish the job of urging the covenant on the senate when he got back, because it still didn't come up to the treatment Canada accords Britons.

More important than this, however, is the matter of trade. Although we have a reciprocal trade pact with Canada, including the "most favored nation clause," the document is bogged down with reservations which result in preferential treatment for Great Britain. Therefore, State Department officials have been dropping some hints to the effect that the President might well attempt some of

well-known charm on the Canadians Then, of course, there is a chance for a fine "hands-across-thesea" gesture as the British trade pact grows warmer and the hopes for an international economic conference spring in many breasts.

DOUGLAS CHEERS WALL STREET Hitherto, Wall Street, which loves its "peaks and valleys" (the extremes of market fluctuations) as a yodeler loves his, has looked with suspicion on the Washington experts, especially members of the Securities and Exchange Commission. The operators were afraid the economists wanted to "iron out," as they call it, all the peaks, fill up the valleys and reduce market fluctuations to the dead and dreary level of a plateau. Or, in their language, enforce a "thinness of the market," reduce liquidity, and

cause less trading.

But when William O. Douglas, new chairman of the SEC, flew down to Washington this week to make his speech of acceptance, he dropped one sentence of cheer. He said he didn't want to try to iron out all peaks. He knew that, in the natural course of events, what goes up must come down. All he wanted the men who make his market charts do was to chart the trends and locate the roots, find out whether the forces behind the movements were natural or artificial.

We will interfere only when such forces are artificial," he said. So we can still play among our peaks and valleys as long as we have enough cash to put up for margins,

GERMAN PRESS SETUP For the first time, accurate information is now available in America concerning the complete setup of the German press, as admin-istered through the chamber of culture of the Hitler regime. The information comes through documents, many of which are not permitted to circulate outside of the reich. They have been translated and collated by Cedric Larsen, formerly associated with the Hoover War Library in Leland Stanford, now of the Congressional

The reich's press chamber (or cabinet) is revealed as the most important of all of the sections of the chamber of culture, and, with the German Press Federation, a group made up of editors and writers, controls the journalism of the country, limiting strictly those who take part in any phase of newspaper making. Violations of the rules or ethics of the profession are tried, not in the ordinary civil law courts, but in "vocational" courts made up entirely members of the federation.

Six hundred newspapers are said to have disappeared in 1933

Circulation methods are rigidly laid down and the official objective of the press, according to Mr. Larsen's study, is service to the state, rather than "capturing circulation from rival newspapers." The newspaper properties are privately owned but state-controlled. (Copyright, 1937, for The Constitution and North American Newspaper Alliance, Inc.)

condemned Naziism and Fascism along with Communism in last year's convention, but for some reason—perhaps because we all had grown used to hearing the Legionnaires resolute against Bolshevism alone, as though it were the only dangerous ism in the land—the triple nature of the 1936 resolution was not as wid known as it should have been.

In fact, these dispatches booted one at the time in a high-pow-ered piece saying that if the Le-gion had been really on its toes guard the American democracy It would have included Naziism and Fascism, too. In answer to that, Colmery—I am pretty sure it was Colmery, although the letter is gone now—wrote to say, in round numbers, that anyone with a license to smear up good white paper six days a week ought to take the trouble to inform himself before popping off.

Well, anyway, this time every-body heard the retiring command-er, and he didn't chew his words. "We stand committed to oppose not merely one alien ism, but all such forces," said he. "We who have been privileged with the status of leadership this year have not forgotten the mendate given not forgotten the mandate given us at our last national convention, which specifically stated that we should oppose Communism, Fas-cism and Hitlerism alike. #### U. S. ECONOMISTS HIT BREAD COST

#### 50 Million Reported Added to Food Bill.

WASHINGTON, Sept. 23.—(AP)-Government economists protested against increased bread prices to-day, declaring the boosts had added \$50,000,000 a year to the public's food bill.

D. E. Montgomery, consumers' counsel of the Agriculture Adjust-ment Administration, contended the increases had been made "in spite of relatively low wholesale prices of bread ingredients. He conceded hourly wages and total pay rolls in the baking in-

# Life Begins At 40 PEOPLE OVER 40 WILL GET BREAK UNDER NEW BILL

Jobs Will Open to New Thousands if Age Ban is Removed

THE UNITED STATES SENATE set a seal of ap-I proval on older workers in June, this year, when it passed a bill removing the age limit for those entering the Civil Service. The backers of this bill expect that it will pass the House of Representatives at the next session.

Formerly many Civil Service positions were closed to people over 40; others to those over 35 years of age.

Obviously, the legislators have come to realize the value of experienced workers-no matter what their age.

And that in jobs where careful THINKING, KNOWLEDGE of people, and STABILITY of character count-people over 40 are often of greater value than younger people.

#### But Health is One of Major Requirements

But, while the proposed law will not admit age as a handicap-yet the requirements of the Civil Service demand that every applicant, of whatever age, must pass a rigid physical examination, and specify that "failure to pass such physical examination will prevent appointment."

Many people may have skill unmatched by others in the same work-but often, unless this is backed up by vigorous health, they fail to get a chance to prove themselves.

#### They Learned to Keep Fit for Their Work-YOU Can Do the Same

Dear Life Begins:

I am a "mother" type in commer-al shorts and advertising films. Although they cast me as a motherly type, I must always manage to look fresh and bright-eyed.

There's so much excitement and tenseness in this line of work that I often found a worried expression on ce and a frown line on my fored when I was supposed to be looking pleased over my new re-frigerator in a movie.

My insides were all tightened up and the heat of the photographer's lights'added to my discomfort. My digestion was upset and the hearty breakfast I needed before a long morn-ing's work always disagreed with me.

I don't believe in strong cathartics I don't believe in strong cathartics or artificial preparations—but a friend recommended yeast. She said it was mild and would be good for my nervous indigestion. So I ate Fleischmann's Yeast. My indigestion left me. It seemed to tone up my whole system—I didn't get jittery any more. I could work at top speed without wearing myself out.

Now I have so much work that I ion't even need an agent to book me and, although I am over 40, I always look fresh and bright. NITRA FRAZER

#### That Digestive Decline At 40 Can Be Checked

If you notice a decline in your digestive action about the time you get to be 40, there's no need to feel alarmed. Take the sensible attitude that it may be expected—but need not be endured.

HERE'S WHAT HAPPENS: The gastric juices must flow freely and retain their strength to insure proper digestion—but around 40, in most people these juices begin to weaken-they slow down.

"That's why people of 40 and over often find Fleischmann's Yeast exceptionally helpfulit stimulates the gastric flow and increases its digestive power.

SINGS IN CHOIR AGAIN

Dear Life Begins: I do all my own housework. I sew a great deal, for I have four daughters, and you know what that means!

I had taken for granted I would be tired at night—but when I awoke exhausted and began to have in-testinal indigestion and feel nervous all the time, I started to worry. So I gave up outside activities—I didn't even sing in the choir.

My friends missed me, One of them said: "Why, I know just the thing for you—Fleischmann's Yeast. If you take it, you'll be back with us in a few weeks!"

So I ate Fleischmann's Yeast and it did correct my condition. Nervous indigestion and exhaustion left. Soon

# ARE TOLD TO JOIN PICKET LINE TODAY

AFL To Make Supreme Effort in Fight To Control Warehousemen.

SAN FRANCISCO, Sept. 23 .-(A)—The AFL teamsters' union tonight ordered its full local strength, reputedly 4,000 men, to stop work and join waterfront picket lines tomorrow in a su-preme effort to force a crisis in their fight for control over CIO-organized warehousemen.

The order was issued after a day of limited teamster picketing which apparently had little effect on CIO - inclined waterfront unions. CIO longshoremen went through the teamster lines apparwithout objection from the

John P. McLaughlin, teamster leader, stated the move had been designated as a "stop work demonstration" so that teamster employers would not regard it as a strike or as an opportunity for a lockout

The local Maritime Federation Council, representing all major unions in the 1934 and 1936 shipping strikes, announced all but two of its 10 component water-front unions had voted to disregard the teamster picket lines.

The council said representatives

of the Sailors' Union and the Mas-ters', Mates' and Pilots' Union abstained from voting. The masters recently voted to remain in the AFL and the sailors have not revealed their plans in that respect.

dress and waved her arms.

These are things that little Julia will have to grow up to. But when she does, she will also have grown out of. When she is old enough to appreciate the beautiful hand-embroidered dress her great-grandfather wore, and the chair, more than 100 years old, which has been in the possession of the family since her parents can remember, she will fit neither.

The baby daughter of Mr. and Mrs. I. F. McLarin came into possession of the two valuable relics in the natural line of descendancy. The dress of embroidered hand-kerchief linen was worn by her grandfather, George Edward McLaren, resident for many years of Fulton county. It was later worn by her father, when he was a baby. Though time has yellowed the white linen the beautiful heart shaped design around the bottom shaped design around the bottom of the skirt has lost none of its

beauty. The old high chair, unpainted cedar, belonged, first, to Louis Kennedy, paternal great-greatgrandfather of the baby. Later it was given to Mrs. G. E. McLaren, paternal grandmother of the baby.

Survey Is Being Made by Group Under Direction of Mrs. Harry G. Poole.

Members of the Fulton County Democratic Women's Club met Wednesday at the home of Mrs. Harry G. Poole for the purpose of discussing progressive legislation needed for the advancement of the county.

Mrs. Max E. Land, president of the club, led the discussion and announced a survey of these needs is being made by a group of south Fulton Democratic women under the direction of Mrs. Poole.

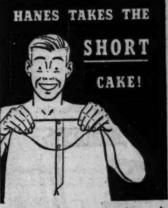

A talk on "Co-operation" was made by Mrs. Alonzo Richardson. Following this Mrs. Poole spoke on the importance of women studying citizenship and giving support to Democratic nominees. Mrs. Carlton Binns outlined the plan of the Women's Democratic party.

New precinct leaders in south Fulton county were announced by Mrs. Land. They are Mesdames W. W. Rivers, Fairburn: J. A. Dennis Palmetto; A. J. Green, Union City; Paul Cannon, South Bend; T. J. Hadden, Red Oak. Mrs. J. H. Gibbs 35c to 55c ea. was appointed a leader for the en-tire district.

Crowley told the Kentucky Bankers' Association in annual

"It is natural to assume that bankers would realize that the purpose of proposed reforms is to achieve results, not merely to undertake 'change for change's sake.'

"Yet bankers, on the whole, have opposed vigorously—some-times even bitterly—every impor-tant reform that has been intro-duced in this country. How much more valuable would this expen-diture of effort have been if bankers had faced the facts, subordinated their vested interests and wadtion of their problems.

"And how much misery and eco-

nomic waste would have been spared if bankers, supervisors and egislators had taken the time to work out together a sound operating basis . . . instead of waiting for the economic catastrophes to hold up the weakness of that system to the shriveling heat of trial by fire and to the bitter gaze of a disillusioned and impoverished

> Under the city of Cleveland are great beds of salt at a depth of 1,800 feet and more. Water is pumped down to the salt, and comes back in the form of brine. The yearly output of Cleveland salt is about 75,000 tons.

In our everyday lives, table salt is the main kind we see, but there are many other kinds. Salt is employed in curing fish and in meat

packing. Most butter is salted, and the salting helps it to stay fresh

Salt is used in making bleaching powder and soap. Lately I have

SUMMER GAIN GOES TO HIPS. So you want to do something about your hips?

or perhaps it was mountain air, and good cooking put 10 pounds on your silhdluette—seven on the hipline. The combination of sea bleeze.

Whenever you overeat you can count on gaining in the hips, but when it comes to slimming down, that takes exercise. Dieting won't help you to lose those same seven

In streamlining the hips, your exercise program must be fairly comprehensive, for hip problems vary. Hips may bow out at the sides in pincushion bulges, or assume a desk chair spread, or a bustle effect. For this reason hip-slimming exercises must tone the musculature of the hips, thighs and buttocks.

The two following evercises punish the fat pads along the sides of the hips:

Position: Lying flat on back on floor, body stretched to full exten-sion, with hands clasped behind the head to act as a buffer. Movement: Roll over to one side,

pillowing the head on the crooked lbow, then back to the other side.

Engagement rings lead right straight to furniture departments, and they're pretty romantic places to go if you ask us confidentially. At least they've never lost their glamor for us and we've been hanging around them for a good long time. There's something touching and thrilling about the idea that all the tables and chairs and 'lesks and dressers will be "dealt" around in as many different assortments as there are hands in a deck of cards. That's because young couples in love, though they look all alike to the cynic, have their own problems and personalities and are in the process of creating homes that will be as individually theirs as their families.

As I write, I look out on the ring of trees back of our swamp and the colors are turning red and gold against the dark green of the pines. Today some dredging work has begun and my husband came over to watch the machines pulling out stumps. The machines seem almost alive, they respond so quickly to the manipulations of the man at the controls. The strong cables are placed far out around the stump of a tree by a crew of men, the engine starts and before you know it the cable is taut and the

resterday was my mother-in-laws birthday. The President did not tell me that she requested us not to send any word to her, as she wishes nobody to be aware of the fact that another year lies behind her. Not being told I sent a cable from us both, with my husband's knowledge, and only last evening did he tell me with a chuckle, of her desire for anonymity. He added that he thought she should be remembered whether she wishes to be or not. In any case, we all drank her health last evening and wished her many more happy years.

days, he always celebrated with his grandmother. Now they have to celebrate it far apart.

I am increasingly conscious of the plight in which men and women over 40, who need work, are finding themselves. Quite frequently there are letters in the mail asking my advice as to what they can do. Yesterday, someone told me of an eccupation in which a man over 40 was actually preferred to one young, and I heaved a sigh of relief. It seems to me ludicrous that this situation should exist for at 40 men or women should be at their best and have exist, for at 40 men or women should be at their best and have experience, poise and patience, all of which should make certain problems of work easier.

In my mail today I find a letter from a gentleman who suggests it might be well to dramatize this situation on the radio. I rather hope he carries out his idea, for people should give it more consideration.

IMPERTURBABILITY. If your neighbor conceives the idea that he is Major Bowes and insists on carrying a gong and ringing it whenever he wearies of any one's chatter, he is insane. You know he is demented because he will not or cannot understand the absurdity or the irrationality of his belief. If nearly everybody claimed to be Major Bowes and carried a gong to give to bores, your neighbor wouldn't be crazy

After all, I am afraid it is like that with respect to nerve weak-ness or nervous exhaustion. Although I named my little book "Chronic Nervous Imposition," let me confess I felt pretty hopeless about it and still feel so. My belief about "nervous exhaust is sincere at any rate, and to the best of my knowledge it is phys-iological. Notwithstanding, nor yet condoning, I do feel sorry for anyone who is unduly sensitive, irritable, touchy, ready to "fly off the handle" annoyed or excited, jumpy, restless, impatient, impul-sive. A Little of Both.

There's never quite enough money for everything—that goes without saying, no matter how difficult, how affluent our young couple is. So they have to decide at the beginning whether they want to go in for completeness or quality. We think a little of both is a good idea with accent on quality. But it depends on the couple whether they can be happy doing without certain things in order to start with a few possessions that will be grand forever and a day. Maybe they'd rather make cheaper purchases in order to have their first little home complete to the last egg beater and ash tray.

Either way, they'll want to think

Either way, they'll want to think more than twice about the style of furniture they decide on. There has been a run on 18th century English furniture for the past few years and all things considered the interest of candy. A woman never loses her childles delight in a surprise necessary from the man she loves. ter what's in current vogue. But no doubt about it, other things there are that will have more refreshing appeal. For the daring young couples, modern will be the only answer they will take. For the couple who want life to be as simple and real as it was in early New England, maple will also retain perennial charm, though here again the fashion has

worth considering.

The main thing—don't buy at random. If you frankly don't know the period designs in furniture, go to the library and look up some books with good furniture illustrations... study them and decide which general type appeals most to you and best expresses the kind of a home you want to have. Dear Miss Chatfield: Many years of my long life have been spent telling others how to be happy domestically. Here is. irony in a situation: I married a sweet, calm little woman 15 years ago. I had always thought I loved her and our two children. Then like a bolt from the dren. Then like a bolt from the blue I knew I loved another woman who was associated with me in business. Because it gave me too much pleasure to be near her, I deliberately kept out of her way. All the while I was completely and utterly miserable. In the end I told her what was in my heart and she thought I was crasy which isn't far from the truth. I know I love my wife. She is a good woman and I wouldn't hurt her for the world. Can you tell me anything beyond "Forget the second womworld. Can you tell me anything beyond "Forget the second woman." I have tried this, fighting with all I had to put her out of my mind. I should tell you that she isn't pretty but possesses something infinitely finer than physical attraction. You mustn't think mine is a physical infatuation; for it isn't. I am sure she cares for me, though possibly not cares for me, though possibly not to the extent that I care for her.

The man was interesting!

In October Peter's break—the long-awaited break—at last arrived. He had struck upon a certain "line" in radio talk; the Chatterton Canned Soup Company was to pay him for a half-hour of "Chatterton Chat" weekly. And if one contract, Peter reasoned eatawny head, would lead him out to the immaculate kitchen, and while he balanced on the edge of the table and she rummaged in "Chatterton Chat" weekly. And if one contract, Peter reasoned eagerly, why not two? Why not a dozen? Every test he had taken, him a little closer. the table and she rummaged in the ice-box they would have a few minutes talk.

"What do you want, Karl? Ginger ale?"

"Cold water. Nothing else!" "It would take me only two minutes to run you home."

"No, no. I want to walk!" That would be about all of it, porch, and his businesslike: "See you tomorrow!"

She must see him tomorrow; it was inevitable. A dozen times a day she saw him without any ef-

After dinner, on a crisp autumn evening of winds and rattling boughs, they talked it over beside the wood fire.

"Well, now, Glory, how about Chicago?" Peter said, coming to wife," Peter said, kissing her hair, her temples, her chin. "I'll need you in Chicago, Glory. We always talk things over. I'd be lost without you and the Scout."

Chicago?" Peter said, coming to the subject with a little awkwardness, for it had been in both their minds for more than two days, and a certain constraint had arisen between them because of it.

"It has to be Chicago?" she sighed. A little frown crept between her eyes and she looked at the fire.

"Oh, sure. Program sent out from there. I have to keep in touch with the Chatterton people, too."

"Fifty a week," Gloria said thoughtfully.

"That's the start."

"It's a good start, Peter. And bridges behind us."

"Oh, gosh, we'd be onto new bridges by that time!"

"Look, darling. Mother's settled here and she's happy. Jimmy's little routine goes like clockwork between her and Molly and Carmela and me. We have plenty of money to keep things going until you're sure of your job. Just as soon as you wire me that there's another contract or that the Chatterton people want to renew, we'll come on. Meanwhile, you'll really have a better chance, you'll really feel freer and easier in your mind than if we were there complicating things!"

"Peter, do you think it's wise to move Jimmy into that cold winter? He's slept out of doors practically every night of his life."

Peter looked at her. "Don't want to go—" he stated, rather than asked, slowly.

Peter pursued.

"You idiot," she said again.

"No, but I do love you, Glory, and sometimes I'm horribly afraid that—since you're so smart, and I've had so much bad luck and have done so many dumb things, I've been afraid that you'd simply get tired of me. Grow away from me."

"What do you think?" she asked lazily.

### You Wake Up --- And It's the Day Of the First Game!

Curious how it happens!

You wake up one morning and it's the day of the first foot-

It seems like no time at all since you were walking out of a cold stadium last December or January, shivering and saying, "Well, I'm glad that's over. Next year I won't be so silly about

And here—today—it is again. And you're silly again.

Well, it's a great game, this game called football. You may subsidize the players and pay the coaches what they are worth and fight over it and drink too much because of it and stay up nights and get angry with your

But the reason you like it is because it's a strictly on-thelevel game. The boys play because they like it and want to get into the headlines and the glory and the big chances the game sometimes gives. And somewhere in your mental subconsciousness there is an atavistic something that responds to the stimuli of physical combat and man-to-man competition in strength and skill.

At any rate, here it is the day of the first game. And you—silly about football again. The Little Woman wants to know if you've got the tickets.

"And, John, you'd better not have got them next to the Jones' again this year. He's always drinking too much and I think he's a bad influence on you. I do wish we'd get seats next to some congenial people. And THIS year, I'd have you know, there'll be no more of those before-game cocktail parties with stains on the

piano and a cigaret hole in my rug. No, sir!"
Football days again—football days—and all of us silly

#### THE BLUE STOCKINGS.

Most any middle-aged gentleman who lived in a rural section and who had a grandmother or grandfather, will recall hearing them speak of some one in the town as "of an old

Presbyterian is a splendid little college at Clinton, South Carolina. It has a high standard of scholarship, a fine faculty and good equipment. In fact, if you are casting about for a small college to which to send your son, you couldn't do better than Presbyterian.

It may not win so many football games. It may not defeat its major league rivals. But the boys get a lot of hard knocks, learn to play for one another, to respect their coach, who merits it, and they get probably more out of football than

The Presbyterians took a rather brisk beating at the hands and feet of Clemson College last week. Today they bob up, in good shape, for a go with the heavier and more experienced Tech tonight at Grant field.

They will lose the football game, but you may doff your hat to them as they lose. They are trying hard and they will be the same fine boys at the finish—even though a bit battered

The spirit of Calvin is strong, I am sure, and the Blue Stockings will take all Tech has and come back next year for more.

#### THE UNVEILING OF THE TECHS.

The unveiling of the Techs is awaited rather impatiently by the throng of Tech supporters. They yearn to see a little bit

Feeble rallying efforts were made at intervals during the session, but these seemed only to slow the trading pace. Volume was unusually light until the final hour when offerings came out at hour, when offerings came out at a brisk pace and found bidders backing away.

Brokers could point to no particular piece of news as a cause of the setback.

Sending some tradens to the side-lines, however, was said to have been the state department's sharp note to Japan on the Nanking bombing, with possibility of imminent application of the neutrality and approximate set. trality act and a consequent cut-ting of commerce with the Orient. Other inspirations to wariness were seen in hints from Washing-ton the United States and England might get together to stem interna-tional "hot money" movements by means of taxation. Secretary Morgenthau and Undersecretray Phillips, of the British exchequer,

804

are to discuss the matter Saturday. The Associated Press average of 60 stocks was off 1.5 points at 56.3, a new bottom since January 3, 1936. The rail group held a shade above its low for the year. Transfers totaled 887,250 shares compared with 739,280 yesterday.

U. S. Market Letter

WASHINGTON, Sept. 23 .- The downward movement of cotton prices which began in late July carried the 10-market average considerably below the 9-cent level in late September to the lowest in four years. A price-depressing influence has been the generally favorable growing conditions, also the slackening rate of domestic mill activity, the downward ten-dency in the prices of other com-modities and military operations

Exports of 497,000 bales of cot-ton from August 1 to September in the orient. 17 compared with 494,000 bales in the corresponding period a year ago. Of this amount about 25 per cent was to Great Britain, 65 per cent to the continent of Europe, 6 per cent to the orient, and 4 per cent to other countries.

Stronger Feed Markets. Some strength was reported in the wholesale feed markets after mid-September, due to better demand and lighter offerings of many lines. Southern pastures are generally poor. Trading in wheat feeds was slow in the southeast and liberal supplies of local rough-age are available. Demand was relatively more active for shorts

than for bran and prices advanc-ed \$2.50 per ton at Fort Worth. Larger supplies of cottonseed meal were available and prices declined. Southern mills quoted 41-per cent protein from \$21 to \$22 per ton, and Texas mills offered 43 per cent meal from \$22 to \$23.

Prices of Eggs.
Prices of eggs were generally upward trend in late Sep-tember as reduced arrivals at the leading markets continued to re-flect a seasonal decrease in production. Reports of some buying of frozen eggs for export ship-ment to Europe was also a strengthening feature.
Undertone of the poultry mar-

ket was fairly steady in quiet trading. Recent advances some let up in consumer demand, but supplies were not heavy and receivers were unable to buy at lower levels. Poultry is going into storage slowly and the seasonal increase this fall is expected to be

Tobacco Prices Hold.

Prices of tobacco so far this season have been holding up fairly well compared with the level of 1936. The increase in the September production estimate was due largely to improved prospects for type 11 in North Carolina and Virginia, and to an upward revision in the estimate for type 14 in Georgia.

Position of Treasury.

WASHINGTON Sept. 22.—The position of the Treasury September 21: Receipts \$38.384,496.48: exbenditures. 315,401,395.18; balance \$2,867,495.82:60: customs receipts for the month \$24,824.856.4.

Questions, Answers On Social Security

In co-operation with the State Department of Public Welfare, The Constitution herewith pub-lishes some of the pertinent ques-tions regarding social security and their official answers from Direc-tor Lamar Murdaugh.

Question: How much will be paid to the old people and other needy in Georgia this year?

ance Division expects to develop a total pay roll of \$6,000,000 during the fiscal year beginning July 1, 1937. It hopes to have about 40,000 individuals on its pay rolls by January 1, a little more than half of whom will be old-age pension beneficaries. The old-age pension list is increasing as rapidly as it is humanly possible for county welfare workers to make the investigations that are necessary. Under the law, and in fairness to all concerned, each individual case must be investigated. Federal appropriations for public assistance are made quarterly after we know just how much state funds will be available for matching them. Accordingly, when we know how much is available, we allot this money to the various counties, distribution being made on the basis of each county's population in relation to the population of the state. This is a legal requirement and is the only fair method we know of making an equitable distribution of funds that are available. more than half of whom will be

ON THE MORROW.

On the morrow, the road to Athens will take extra traffic. The gasoline buggies will be hauling the boys and the gals over to Sanford stadium to see the unveiling of Mr. Harry Mehre's

The Georgia team is getting quite a lot of favorable boosting here and there as a team likely to be up there when the final games are in the records. True, most of this is being done by the coaches who have to play Georgia. They didn't like that finish the Bulldogs put on last November. They are afraid they may have picked up there. And he may—with a little luck.

The Bulldogs play Oglethorpe. John Patrick, a very fine young man and coach, hasn't much material. But his lads will stay in there and pitch, as the boys say. And once—in 1929—Oglethorpe won. Georgia doesn't like to remember that.

AT NASHVILLE, TENN-O-SEE.

The morrow, however, will find your old partner up in Nashville, Tenn-C See. The Vanderbilt team is to play the Kentucky team. That ought to be a lot of fun for the spec-

Not so much fun, though, for the Messrs. Ray Morrison of the Vanderbilts, and Chet Wynne, of the Kentuckys. Not so much fun for them.

In fact, I may get there tonight just to have a look at Mr. Wynne's face. Mr. Wynne is the greatest football worrier in the world. And he will be at his best today and tomorrow.

There are just two real games on Saturday-as far as real football goes-and that's down at New Orleans where Clemson and Tulane meet, and at Nashville where Vanderbilt and Kentucky clash. The boys are getting started early at the lead pipe stage this year.

Spike and Troll spat venomously. "We ought to kill him, that's what. It's his life or ours." Tarzan shook his head. "To the Kaji women, he is a sort of deity. If we kill him, they might take a terrible vengeance upon us. He would be more valuable to us as a hostage."

Wood and van Eyk nodded assent. Troll was on the point of offering more objections when the discussion was interrupted by a great commotion in the hall. A band of Amazon warriors pounded furiously on the door. "Mafka! Mafka!" they furiously on the door. "M cried; "we must see Mafka!"

Extra Pay of \$50 Voted by Maritime Commission; Union Asks More.

WASHINGTON, Sept. 23—(UP)
The United States Maritime Commission today voted to pay a \$50
bonus to seamen and officers on
government vessels entering "danger zones" in Chinese and Spanish waters.

The National Maritime Union, affiliated with the Committee for Industrial Organization, is demanding \$250 bonus per trip into war zones, and \$25,000 insurance for seamen.

Representatives of the maritime union met with the maritime commission and shispowners yester-day and failed to reach any settlement of their demands for bonus and insurance.

Later, the union representative charged that the commission's at-tiude was a "rubber stamp" of the

shipowners' arguments, and that shipowhers arguments, and that the government agency had been "put in the position" of "indorsing the Rebel cause in Spain and Japan's aggression in China."

Commission sources said today's Commission sources said today's action could not be interpreted as an "answer" to the union charges.

The commission announced that the bonus was "in addition to the protection which seamen of government operate."

WASHINGTON, Sept. 23.—(P) The world's leading financial powers, Great Britain and the United States, may shape some new instrument of taxation to minimize harmful effects of international

money movements.

The possibility of mutual action by the two countries in taxing allen investments within their borders was indicated today by

Secretary Morgenthau.

He told reporters he would discuss such taxes Saturday in a conference with Roswell Magill, treasury undersecretary, and Sir Frederick Phillips, undersecretary of the British exchequer. Parley Scheduled.

# OF POWER IS SEEN IN EUROPE'S CRISIS

No More Troops to Spain Is Believed Pledge of Italian Dictator.

LONDON, Sept. 23.—(P)—An authoritative source declared to-night that a new balance of power in Europe was made possible by the expected adhesion of Premier Mussolini to the Anglo-French working agreement

This source asserted that Mussolini gave France a definite promise that no more Italian troops would go to Spain if Italy, Great Britain and France could agree. as expected, on Italy's proper place in the Mediterranean antipiracy patrol and on other ques-

This promise was said to have been given by Bova Scoppa, Ital-ian representative at Geneva, to Yvon Delbos, French foreign minister, at Geneva yesterday, and to have been reaffirmed by Italian Foreign Minister Count Galeazzo Ciano in Reme.

Details Lacking. Authorities at Rome gave no de-tails on improved Italian relations with Great Britain and France on the eve of il Duce's visit to Reichsfuehrer Adolf Hitler in Germany.
Diplomatic circles there, however, declared it would be a log-ical step for Great Britain and France to strive for Italian friend-liness before Mussolini meets Hitler, pointing out it would lessen the probability of an Italo-German agreement inimical to them.

On the Italian side, they said it would strengthen Italy's bar-

gaining position with Germany and would also reassure Hitler against the possibility of German entanglement in Italy's quarrels. Authoritative information here was that, besides the Spanish question, Mussolini and Hitler would discuss five topics—an anticomintern resolution, Austria, Czechoslovakia, a declaration in favor of Hungarian rearmament and establishment of the fact that neither Hitler nor Mussolini wants an Italo-German defensive alli-

# MRS. R. E. HARVEY DIES IN OKLAHOMA

Former Atlanta Woman Victim of Auto Accident; Mate Badly Injured.

Mrs. Robert E. Harvey, 55, of Cleveland, Ohio, and formerly of Atlanta, was fatally injured yes-terday near Byers, Okla., when a strong gust of wind blew her car into a ditch.

She was the mother of Mrs. John K. Ottley Jr., of Atlanta, and until five years ago resided here, where her husband was associated with the Atlanta Trust Com-

pany. Her husband, 54, driver of the auto, received chest injuries and fractured ribs. Richard Dudley Harvey, 15, the couple's son, sustained a back injury. Both were reported in serious condition at the Presbyterian hospital in Den-

ver, it was reported.

State highway patrol officers reported the car was blown into a pit by a strong gust of wind which sent it out of control. The Harveys were en route from

Cleveland to Denver where Harvey is to assume duties October 1 as financial manager of Presbyterian hospital. While in Atlanta, Mrs. Harvey

was actively engaged in work with the charitable organizations. Funeral arrangements have not been announced.

#### BENNING TROOPS PLAN LONG PRACTICE MARCH

COLUMBUS, Ga., Sept. 23.-(P) Brigadier General Asa L. Single-ton, commandant of Fort Benning, announced today approximately 1,100 men and 45 officers will leave the post September 27 on an annual practice march.

The large troop body, which will be completely motorized, will be encamped at Maxwell field. Montgomery, Ala., the first night, and the following morning the soldiers will leave for Birmingham, where they will remain until October 1. The troops will return to Fort Benning via Maxwell field, where there will be a one-night stop-

In another group composed of likely regulars this season are Bo Russell, left tackle; Happy Sivell, left guard, and Oscar Burford, who finished the 1936 season as a starter at right end. Russell played 22 1-2 quarters, Sivell 16 1-2 and Burford an even 17.

Captain Lester Antley, center, completed last season with only eight quarters of playing time; Fred Gillam, right guard, not any; Right Tackle Freddie Holman with seven and a half quarters, Quarterbacks Osmo Smith and Pig Walker with 11 3-4 quarters, respectively, and Fullback Dutch Heath with nine and Fullback Pelham Sitz with four.

All of these boys are promising youngsters but they need considerable experience. It is too bad that Auburn has such a murderous card this season that Coach Meagher will not be able to season them in several easy contests.

The seven Southwest conference teams will probably do more trav-eling this fall than any other group. They play from coast to

# Small Petrel Squad To Face Bulldogs

# ONLY 26 MEN ANSWER CALL

By JOHNNY BRADBERRY.

Faced with the smallest squad in years and a rough ten-game schedule, which begins with Georgia, Coach John Patrick, of the Oglethorpe Petrels, was confronted with the task of replacing vital men lost from the only fair 1936

men lost from the only fair 1936 squad. Oglethorpe plays Georgia at Athens Saturday afternoon.
Only 17 men reported to the first practice at Hermance field. Notable among the absentees was the veteran halfback, Ed Schwabe, upon whom the hopes of the Petrels rested. Schwabe finally reported a week late only to announce that he was quitting school to enter business.
However, he again changed his mind and came out for the team. He was slow getting into condition but will start against Georgia.

The end situation will be taken care of by Owens and Chesney. Zelencik and Weems, tackles; Steward and H. Axelberg, guards, and Pigago, center, probably will fill out the line.

fill out the line.

In the backfield Buck Thomas will be at quarter, Schwabe and Murphy, halves, and either Ansil Paulk or Martin Kelly will get the fullbacking assignment.

An interesting battle was waged for the fulback position between the veteran Paulk and sophomore Kelly. Kelly semes to have a slight edge.

Injuries have hit the Oglethorpe camp—five of their 26 varsity candidates being on the sidelines.

Coach Patrick, in an effort to get his light, fast backs in the open, has announced that he will drill the squad to use the type of razzle-dazzle passing attack employed by the University of Washington last season. This is considered the most open style of all passing.

Patrick has also inaugurated a new system of signal calling—it being done this year by one of the tackles rather than a back.

The Petrels' schedule includes the following games: Georgia, Centre, Wofford, Chattanooga, Er-skine, Mercer, Rollins, Mississippi College, Stetson and The Citadel.

Auburn Freshmen Play Tech, Georgia

AUBURN, Ala., Sept. 23.—A pair of Southeastern conference opponent appear on Auburn's freshman football schedule of three games this season. They are Florida, a newcomer, and Georgia Tech, a traditional rival.

Tech, a traditional rival.

Coach Ralph Jordan's Orange and Blue plebes, who meet Birmingham-Southern at Auburn next Saturday in their season's inaugural clash, will tie up with Florida in Selma, Friday night, October 15, and square off with the Baby Yellow Jackets on Drake field, at Auburn, Friday, November 12, in one of the leading first-year grid battles in the south.

ROOKIE TACKLES

Tech's Versatile Captain

STAR AT ATHENS

ATHENS, Ga., Sept. 23.-A pair of Red Devil tackle recruits are providing two players earmarked for the second-string with stiff competition as the University of Georgia football squad engages in drills designed to enable them to cope with Oglethorpe here Satur-

Albert de Charleroy, 205-pound strong man from Monsey, N. Y., is giving Clayton White, 210, Milledgeville, all he can take in the quest for the left tackle spot. Wilhite's varsity experience, parttime service in about five games, is much in his favor. But de Charleroy is asking no odds and at his present clip he may be Coach Mehre's No. 2 left tackle.

The other player showing promising tackle ability is Charlie Williams, Athens, 210. He is gunning for Foster (Red) Milton's secondstring post as running mate to Wilhite.

Wilhite.

Both of these newcomers to the varsity squad surpass Wilhite and Milton in speed. They have also shown meritable defensive ability. Williams, shifted from guard to tackle the first of practice, served as captain of the Athens High's team for two successive seasons.

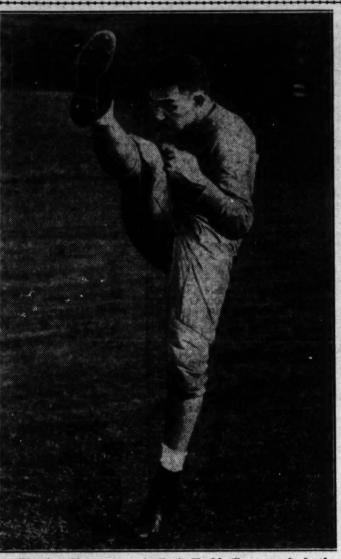

Leave the **DELAYED BUCKS** to the FOOTBALL TEAMS

A delayed buck may or may not be sound strategy for a football team, but it's certainly no help to the novice who tries to ride to Grant field in his automobile. In fact, a quarterback who called for his automobile to go through the congested traffic would be guilty of such a tactical error that he'd probably spend many unhappy hours on the bench between now and Thanksgiving

A street car or coach is the only consistent ground gainer. When you get into the lineup Friday evening, just call play No. 23 (Route 23, West Peachtree-Buckhead car to West Peachtree and North Avenue). Extra cars will be provided to handle the crowds for the opener of Georgia Tech's 1937 season.

In addition, special buses will be operated from town on Techwood Drive to North Avenue and on North Avenue to Luckie Street, right past the gates of Grant Field.

**GEORGIA POWER** COMPANY

Fletcher Sims, quarterback, is Tech's first captain in the backfield for several years and no worthier selection could have been made.

By BILL BRAUCHER. (Central Press)

University of Alabama's Crim-University of Alabama's Crimson Tide may not be heard from early this season, but we have been warned by some of the best minds in the south not to sell Coach Frank Thomas' eleven short... Alabama has an opportunity to point for its few big games.

to point for its few big games.

'Bama has a great array of sophomore talent, steadied by a number of veterans . . . stars include Joe Kilgrow, outstanding halfback; Captain Leroy Monsky, potential All - American guard; Perron Shoemaker and Tut Warren, ends; fullback, Charley Holm, brother of the famous Tony of several years ago, and Vic Bradford, halfback.

several years ago, and Vic Bradford, halfback.

Another team is being groomed at Auburn, under the watchful eye of Jack Meagher . . . like Thomas, Meagher is a Notre Damer, and his elevens at Alabama Poly always command respect . . . Auburn may turn out to be the south's strongest team this year . . . the attack is built around two fine backs, Billy Hitchcock and Jim Fenten, who strutted their stuff last year against strong teams, including Tennessee. . . Many veterans have returned, and the squad is in excellent shape and has fine spirit . . . last year's All-Southern center, Gilbert, has been replaced by Captain Lester Antly, aggressive snapper-backer.

Louisena State has won the Southeastern conference championship for two years running, and may be very hard to dislodge from their spot . . . stars of L. S. U. include Ed Gatto, tackle; the Gormley brothers, linemen, and an array of backs led by Charley Lemak, Arthur Morton, Cotton Milner and Pinky Rohm.

One of the dark horses of the conference is Mississippi State where Major Ralph Sasse, former

State has a fairly hard schedule, but is rated a good chance of sailing through . . the team is experienced, among the veterans being Captain Bill Steadman, fullback, and a heavy line, with Dave Price at center.

One has to guess wildly at what Vanderbilt, Tennessee, Kentucky, Mississippi and Georgia are likely to do . . Vanderbilt has been overlooked in pre-season gossip . . . Coach Ray Morrison has some fine backs—Jimmy Huggins and Bert Marshall, open field artists, Houseman, Plunkett, Agee and others . . . Captain Hinkle is a great center . . . Kentucky has a capable team, with Bob Davis, probably the south's best running back . . . Coach Chet Wynne has some powerful material to support his star . . . Tennessee still is of doubtful status . . . Major Neyland has a large squad, but the search still is on for a threat to replace Phil

is on for a threat to replace Phil Dickens, All-Southern halfback of 1936: . . the Vols have a punishing schedule, with Duke and Alabama on successive Saturdays

Mississippi, which played Tennessee to a scoreless tie last year, is big and formidable. Coach Ed Walker has two of the toughest football players in the south in the persons of Ray Hapes, elusive back, and "Bruiser" Kinard, slashing tackle. . . Georgia is pretty sure to upset somebody before the season is far under before the season is far under way . . . Coach Harry Mehre has a fine platoon of reserves this year . . . after a slow start last fall, Georgia came on with a belated rush to tie Fordham and beat Georgia Tech, Florida, Tulane and Sewanee are unknown quantities . . . which means they'll have to be watched . . . especially Tech, where Coach Bill Alexander annually pulls tricks out of the bag.

BATON ROUGE, La., Sept. 23.
A sophomore fullback who just wouldn't stay on the second team probably will start for Louisiana State University's defending Southeastern conference champions against Florida here Saturday night.

Jake Staples, the heaviest back on the squad, at 196 pounds, may be the only sophomore in the Tigers' starting lineup.

The fullback express from Monroe has gone like a house afire in scrimmages with the "red shirts" the past 10 days.

A quick starter and even faster when he gets underway, Staples also crashes his 196 pounds through an opposing line with great skill.
